Re: Poland/Model Legislation

Dear Jim and Tony:

Last Friday, 16 October 1992, we received the proposed Polish Legislation "On Preventing the Harmfulness of Using Tobacco" and Jim asked us to prepare a model bill to regulate smoking in public places and workplaces containing various levels of restrictions.

I asked Dale Walker to assist in drafting some materials for your consideration in view of her recent experience working with Leo Dreyer and our colleagues at PM in New York on similar matters.

I am attaching hereto Dale's memo to me, together with the several attachments. Both Bill Davis and I have reviewed these materials and believe that Dale did a very fine job on this matter.

I hope that these materials will provide you with a number of useful alternatives but I personally feel that the interlineation of the original Polish bill will probably be your best alternative. However, you will, of course, have better judgment on this in view of the local situation.

If there is any further information you require or you need amplification of any point, please let me know.
